## RADIUS SIGNS MULTI-YEAR GLOBAL DATA REPORTING AGREEMENT WITH TRX

**Washington, DC** — RADIUS – a corporate travel management company providing global travel solutions is pleased to announce that it has entered into a multi-year agreement with TRX, a global provider of travel technology, process automation, consulting and data services, for its market-leading data reporting tool. RADIUS conducted extensive industry research and testing and determined that TRX offered the global platform and reporting flexibility that today’s multinational corporations demand.

RADIUS’ global portfolio of clients requires travel management tools that facilitate cross-border travel, business activity and full-trip data reporting. The worldwide coverage of the TRX data reporting platform allows procurement and travel managers to view, analyze and report on key performance indicators in order to control spending and prevent travel policy leakage. TRX’s optional data enhancement services – hotel data normalization, credit card transactions, expense management tools, air contract processing and more – refine and improve data quality and reporting capabilities.

“TRX offers the architecture, approach and vision to be a resourceful, responsive technology partner with RADIUS for many years to come,” explained Jay Richmond, SVP, Supplier Relations & Product Management. “Our on-demand reporting and flexible formatting provides multinational corporate clients with the information they need by traveler, route, vendor, contract... anytime, anywhere.”

“TRX’s expertise, strong reputation and innovation in data management and business intelligence directly supports our mission to deploy powerful, best-in-class solutions that add value to our clients’ business,” said Chris Vasiliou, President and CEO of RADIUS. “This strategic new agreement enables us to provide market-leading data reporting and analytics to our multinational corporate clients.”

“We’re excited to partner with RADIUS and extend our leadership role in travel data management and reporting,” said Shane Hammond, President and CEO, TRX. “Our joint efforts will provide the RADIUS network of travel agencies and corporate clients with immediate access to the leading reporting solution in the market today.”

###

RADIUS – the global travel company is one of the world’s largest travel management companies with combined annual sales of over USD 19 billion. RADIUS is comprised of 90 travel agencies in 80 countries around the world with over 3,300 locations and is
